Milpitas Christian Schools Protect Children, Teachers During Earthquakes

Milpitas Christian Installs QuakeGuard™ Earthquake Early Warning System

WHAT: **Press Conference...**Ken Van Meter, Superintendent of the Milpitas Christian Schools, will host an advisory on school benefits from the new QuakeGuard™ early earthquake warning system, which has just been installed by Seismic Warning Systems. There will be a live demo of the alert system!

WHY: Milpitas Christian is the first school in the Silicon Valley to deploy the QuakeGuard earthquake early warning system. This system provides alarms, alerts and automated controls to protect children and teachers in the event of a damaging quake.

Seismic Warning Systems provides systems and services for early seismic detection and automated system response to commercial, industrial, government, and residential customers. The company designs and manufactures the patented QuakeGuard™ family of seismic detection systems, which help avert human injury and mitigate earthquake damage to property and other assets.

WHO: Comments from:

- George Dickson, CEO, Seismic Warning Systems
- Ken Van Meter, Superintendent, Milpitas Christian Schools
- Jose Estevez, Mayor of Milpitas

Demonstration of QuakeGuard seismic alerts, with drill.

Also attending:

- San Jose City Councilman, Chuck Reed

Proactive discussion
